

# Run the Bank simulation

Whether you are looking to compliment your existing programme with a highly engaging simulation, transform the way you induct your new employees into your bank or embed your leadership behaviours and organisational values in a practical setting - Run the Bank will deliver

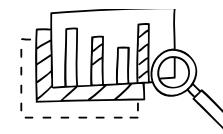

**Run the Bank** is a unique simulation, designed to equip participants with an overview of your Bank's products and services, strategy, structure, risk culture and values. Over a day, participants run their own bank, rotating through each area of their bank to learn what the key functions do, experiencing first-hand the strategic, leadership, financial and regulatory challenges of running a successful global bank.

...your Bank's specific divisions, products and services

...your Bank's performance metrics, strategic targets, balance sheet, capital requirements and income statement

A full set of financial statements are provided for each bank highlighting the return on equity by division and other key financial metrics. Dashboards are produced for each line of business each round highlighting the key drivers of their performance.

About us

At **MDA Training** we have over 30 years experience of designing and delivering bespoke, scalable and flexible learning solutions for our banking clients

Fully tailored to reflect **your Bank**

The simulation will focus not only on **what** your Bank does, but **how** it does it - based around your principles and way of business. And working with you, we will tailor the simulation to reflect the areas you would like to focus on including...

...your Bank's Principles and Code of Conduct

- Client focus
- Accountability
- Integrity
- Trust
- Innovation...

...your Bank's risk strategy and culture and regulatory commitments

The Bank operates within a strict regulatory framework and teams must adhere to all regulations and satisfy capital, liquidity and stability ratios. They are expected to have a regulatory mindset and the leadership team should be engaging with the regulator and seeking ways to enhance communication.

We build long-term, trusted relationships with our banking clients
