

# Presenting and pitching virtually with impact

At MDA Training we believe in learning by doing and our virtual learning solutions are no different. Our 'Presenting and pitching virtually with impact' workshop blends facilitator-led sessions with interactive and experiential activities designed to engage participants throughout. Structured across five key themes, our virtual workshop is full of practical tools and tips that will help participants to make a positive impact in virtual presentations, pitches and meetings. Throughout the workshop, we provide time for participants to 'troubleshoot' their virtual challenges with our expert facilitators and to find solutions they can apply immediately to their virtual workplace.

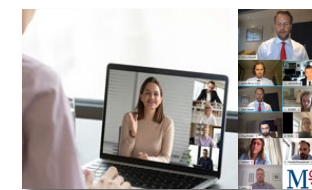

## 4) Creating a lasting impression

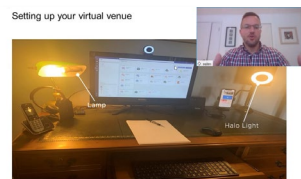

- Power of the senses in a virtual setting
- Effective listening skills
- Presenting with impact and structuring your presentation

- **5) Virtual forum theatre** • Participants experience first-hand your business challenges
- In real time, they direct the scenarios to ensure the best possible outcomes
- The session will allow participants to apply their learning, supported by facilitator-led discussions around the scenarios

- **3) Tools and tips for managing your virtual meeting** • Sharing documents effectively
- Dividing the roles and managing transitions
- Making it interactive
- Effective co-hosting

- **2) Connecting with your audience** • Setting up your virtual venue and creating the best online environment
- Using the right tools and technology to improve audience engagement

## 1) Understanding your virtual venue

- Exploring the features and benefits of the key virtual platforms
- A more focused look at your in-house platform (and/or your client's virtual platform)

The workshop also comes with a **handy takeaway guide** that includes practical tools and tips explored in the sessions and a section of where to buy the tech showcased in the workshop
